THE ONLY TANNING LAMPS STILL
MADE IN USA
INTERLECTRIC CORPORATION

Interlectric Corporation

Interlectric Corporation is one of the largest independent fluorescent lamp manufacturers in the world, producing all its lamps in the U.S.A. Interlectric Corporation has the most experience selling tanning lamps direct to salons.

Since its inception in 1939, Interlectric Corporation has built a reputation as a leader and innovator in fluorescent lamp manufacturing; specializing in designing and manufacturing fluorescent lighting, colored lighting for Hollywood studios, specialty lamps for hospitals, indoor tanning lamps for the tanning industry and much more.

Complementing our standard lamps, Interlectric provides you with the opportunity to develop new products through our engineered lamp department. Through this department, our engineers work directly with you to generate specifications and product in almost any quantity. Our engineers can design custom lamps to fit your specific needs, and we have the capability to offer our private labeling on any lamp we manufacture.

Compatibility

Interlectric is compatible with over 250 lamps in the industry and is registered as equivalent in compliance with the Federal Performance Standard 21CFR 1040.20.

Bronzing and Instant Result

Our unique phosphor combinations give you a choice of fast bronzing action with little reddening or instant result lamps that redden initially and bronze overnight. Choose from 9-30 minute tan times with the perfect lamps to produce color for all clients.

Low-Cost Shipping

Our own shipping fleet enhances our ability to serve our customers by virtually eliminating breakage and lost shipments. We offer the option of using our fleet to SAFELY deliver lamps in 32 states for a flat rate (on orders of 36 lamps or more). Orders of 300 lamps or more are shipped FREE on Interlectric Trucks.

We also ship via UPS with "Approved Packaging" and common carrier (to which significant discounts apply).

Unique Salon Lighting

You can add to your salon's ambiance by choosing any specialty lamp available from INTERLECTRIC CORPORATION's general lighting division. See for yourself what a difference specialized lighting can make.

Sun Celeste®

Sun Celeste® premium tanning lamps create a new level in tanning with longer life and superior color. Lamps feature gold end caps, cathode & heat shield technology, and a uniquely enhanced UVB/UVA phosphor combination that provides a consistent darker and long lasting tan.

5.0-9.5 100Watt/HO's, All lengths available

6.5 and 8.5 VHO'S

6.5 120Watt/HO's

59", 71", 73" and 79" HP9 VHO'S (9K90 Compatible)

59" and 71" HP9 100W/HO's (9K90 Compatible)

Super Sun®

Super Sun® The X-Series lamps are developed with some of the finest natural earth phosphors in the world, for a natural dark bronze tan that lasts.

X5000 A 20 to 30 minute lamp that produces excellent bronzing results with little reddening.

Compatible with Velocity, Bellarium S, Diamond Sun, Speed 175, Speed 205, Crystal Sun, Accelerator and Goldarium S.

X6500 Our top-selling 20 minute lamp. Deep, dark bronzing action with initial reddening. Fast Results! Gives you a true edge over the competition. Great Price!

Compatible with Puretán S+, Light Sources Beach Sun, Midday Sun, Genesis 105, Diamond Sun S, Sunbronze 6.5, Brilliance 5.0, Mega Voltage Gold, Dominion and Rio Bronze.

X7500 A radical boost for any tan in 17 to 20 minutes. Initial reddening to dark bronze. Get the tan that lasts!

Compatible with Beach Sun 6.5, Equator Sun 8.5, Sunbronze 7.5, Brilliance 6.5, VIP Gold SE, VIP Gold ZX, Rio Bronze, Mega Voltage+ Gold Series and the original Eurosun.

X8500 Our quickest dark bronzing lamp. 15 minutes is all it takes to see a change in color.

Compatible with Hi-Tan, Equator Sun, Brilliance 8.5, Instantan XL 7.9, Light Source 8.5 and Sunbronze 8.5.

Super Sun® SS73 5.5 20 minutes is all you will need for a quick, rosy tan that shows immediate color and darkens overnight.

Compatible with Bellarium S, Diamond Sun S, Puretán S+, Genesis 105, Wolff Everglow, Light Source 4.2, Euro Bronze Magnifier 7.0+, Voltarc 4.2, Intensity an Velocity Plus.

Super Sun® Series II Get results with enhanced longevity from this 20 to 30 minute lamp. This amazing 1500 hour lamp peaks high in UVA, creating a rich, golden tan with some initial reddening.

Compatible with Velocity, Bellarium S, Diamond Sun and Crystal Sun Bellarium+.

Panther™ 9.5 The most powerful 10-minute instant result lamp in the industry! A plateau buster for even the most avid tanner. Available in all sizes, including 74" RDC.

Compatible with Platinum, Biosun II, Light Sources Natural Sun and Puretán SX.

Phoenix™ 8.9 Immediate color in 15 minutes! This unique 1200 hour hybrid has strong melanin-producing rays combined with high UVA output, creating initial reddening that transforms into a deep, golden bronze tan.

Compatible with Cosmedico Hi-Tan and Sunbronze 8.5.

Phoenix Extreme™ Phoenix Extreme™ rises above the competition with 10 minute max tanning. Golden bronzing action. 1200 hour average rated lamp life available in all sizes.

Compatible with F72T12BL-HO/9.5 Natural Sun, Platinum 10-M F74, Platinum Bio-Sun II F74, Cosmedico F71 Hi-Tan and F73 Puretán SX.

Absolute Sun®

Absolute Sun® 5.0 A15 to 20 minute bronzing lamp with little or no reddening. Compatible with Midday Sun, Light Sources Dual Sun-R, Wolff Speed 275R and Bronzing Sun Mag.

Absolute Sun® Daystar A 20 minute bronzing lamp. Compatible with Comedico VLR and Kalfasun B14-S.

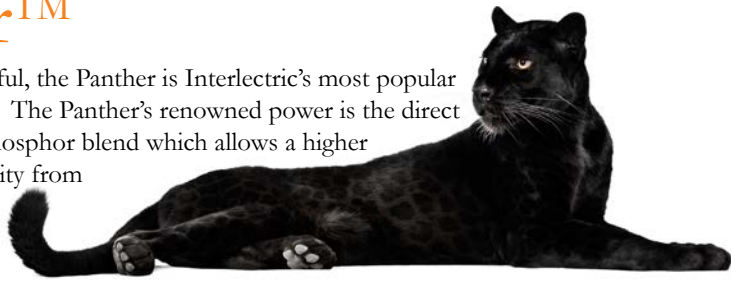

Absolute Sun® 6.5 A 10 to 15 minute bronzing lamp with little reddening. Compatible with Beach Sun 6.5, VIP Gold ZXR, Puretán Spectralarium R+ and Rio Bronze R.

Absolute Sun® VHO-R A 10 minute bronzing lamp. Compatible with Cosmolux VHR, Signature Series, Puretán Spectralarium VHO-R+, Wolff Belarium SR VHO and Mega Voltage Gold Series.

Absolute Sun® 4.5 A 20 minute bronzing lamp. Compatible with Wolff Speed 225 and Speed 255 R. Compatible with Bronzing Sun Plus, Bronzing Sun Mag, Cosmolux ESP/R, AUVL X-Treme 100w XR Plus, Tan America Premier and Philips Cleo Swift.

Panther™

Sleek, fast, and powerful, the Panther is Interlectric's most popular line of tanning lamps. The Panther's renowned power is the direct result of its unique phosphor blend which allows a higher wavelength UV intensity from 280 - 300 nanometers (261-320nm: UVB Spectrum) with a generous 9.5 percent UVB output. It also features a broader UVA curve (321-380 nm) rather than a spike in that spectrum. The Panther sunlamp is available in five lengths: 59, 71, 72, 73, and 74 inches, is compatible with at least five popular sunlamps currently used in the industry, and can be used in many 10-minute tanning systems. The VHO Reflector Panther model under the Absolute Sun® (ABS) brand is available at 59 and 71-inch lengths.

Available Lamps:

SS59/Bp/Panther - Super Sun®, SS59/Bp/Vho/Panther - Absolute Sun®, SS71/Bp/Panther - Super Sun®, SR71/Bp/Vho/Panther - Absolute Sun®, SR71/Vho/Panther - Rdc - Z Absolute Sun®, SS72/Ho/Panther - Super Sun®, SS73/Panther - Super Sun®, SS74/Ho/Panther - Super Sun®

Call for details about all the advantages of our Panther lamp.

Recertification

Interlectric is registered with the FDA to perform recertification of your tanning units. Recertification allows your tanning unit to compete with new units, including those using high UVB lamps, yet still be in compliance with Federal regulations. If the bulbs in your unit are not specified on the label or you wish to use a lamp other than that specified, you can have the unit recertified and receive new labeling. With the aid of our qualified staff, you may recertify your unit for the lamp of your choice.

Instant Results

Super Sun® SS73 5.5 20 minutes is all you will need for a quick, rosy tan that shows immediate color and darkens overnight.

Compatible with Bellarium S, Diamond Sun S, Puretan S+, Genesis 105, Wolff Everglow, Light Source 4.2, Euro Bronze Magnifier 7.0 +, Voltarc 4.2, Intensity and Velocity Plus.

Series II Get results with enhanced longevity from this 20 to 30 minute lamp. This amazing 1500 hour lamp peaks high in UVA, creating a rich, golden tan with some initial reddening.

Compatible with Velocity, Bellarium S, Diamond Sun and Crystal Sun Bellarium+.

Phoenix 8.9 Immediate color in 15 minutes! This unique 1200 hour hybrid has strong melanin producing rays combined with high UVA output, creating initial reddening that transforms into a deep, golden bronze tan.

Also Available:

Super Sun® 2.6 , Super Sun® 3.2 , Super Sun® 3.5 , Super Sun® 5.5
SS59 & 71 BP/A-Ray/1.0, and Panther

Lamp Maintenance

Heat is the greatest enemy of your lamp performance. Try to keep room temperatures around 66°-74° Fahrenheit. Salons are not beaches! Remind your customers that heat does not contribute to the tanning process.

Flickering may indicate a need for new starters. Starters give an extra burst of current upon activation, reducing wear. Note that used lamps will start more readily than new ones.

It is important to clean each unit thoroughly at least once a month to maintain maximum UV output.

Be sure that the sockets are clean and that the lamps fit snugly. If sockets have loose contacts or worn springs, replace them. Worn sockets can cause premature darkening of lamps, arcing, and can shorten lamp life.

Check acrylics for cracks and yellowing. An old shield can block up to 70% of UVB rays.

If you couldn't find a compatible lamp, call us. Chances are, we have a compatible lamp.

Online Shopping

By visiting our website at www.interlectric.com, our customers can purchase any of our products online. By using your individual login, your unique contract pricing for stock and private label items will be available to purchase products. Online ordering is great for reorders and ordering during non-business hours.

Unique Salon Lighting

In addition to tanning lamps, Interlectric manufactures a full line of General Lighting for all your lighting needs!. Call us or visit us online to find out how you can gain a competitive advantage with improved interior lighting.

Interlectric is Made in USA

Interlectric is proud to manufacture all our lamps here in the U.S.A. and be the last manufacturer of tanning lamps in the U.S.A. Our quality lamps reflect our 70 plus years of fluorescent lamp manufacturing. While many companies have moved their manufacturing overseas to reduce costs and increase margins, we have made the ethical choice to support our country and citizens by maintaining 100% of our manufacturing in the United States. By offering factory direct sales and local shipping, we are able to keep our customers' costs low while maintaining the quality of our premium products.

Visa, Mastercard, American Express, Discover, and COD orders accepted
